<sup>&</sup>lt;sup>1</sup> The purpose of this statement is to satisfy the UK legislative requirements of paragraph 19(2) Schedule 19 Finance Act 2016 in relation to the publication of tax strategy insofar as it affects our UK Group. This covers the period ending 31 December 2022 and we review and refresh our tax strategy annually.

With this standard, we are committed to a transparent compliance and disclosure policy, seeking to maintain good relationships with tax authorities, acting as a trusted partner, paying accurate amounts of taxes in a timely manner.

In order to achieve consistent and full implementation of our tax strategy, the Group operates local tax functions in its major operations including the UK.

Allianz's appetite for tax risk is low. We therefore seek to minimise tax risks by actively and continuously identifying, assising, monitoring and managing them.

## Tax Compliance and Tax Advocacy

We constantly aim for certainty in our tax positions and obtain internal or external advice and validate our position where appropriate. If we seek rulings from tax authorities to confirm an applicable tax treatment, we do so based on full disclosure of all relevant facts and circumstances.

We seek efficiency in tax matters, including the prevention of double taxation and pay only the tax due following reasonable interpretation and application of tax rules.

We do not engage in aggressive tax planning or artificial structuring that lacks business purpose or economic substance. Our tax activities are conducted with the clear understanding that all facts and circumstances must be disclosed to tax authorities.

This strategy is aligned with our Code of Conduct and is approved, owned and overseen by the Allianz Capital Partners GmbH Board.
